A Cardinal on the Pope.

(From the Eastern Budget)

The first printed protest by a cardinal against the doctrine of the Papal infallibity has just been published at Naples under the title of 'De Summi Pontificis Infallibilitate Personati.' Its author, the Austrian Cardinal Prince Schwarzenberg, begins by guarding himself aginst the view that the opponents of Papal infallibility are also the adversaries of Papal authority and supremacy; an accusation which, he says, is obviously unjust and uncharitable. He next proceeds to combat the arguments in favor of the Papal infallibility of the Jesuit Bellarmin, and and especially of Dr Manning. In opposition to these arguments he brings forward the following points: 1. A doctrine which is neither indicated in the Holy Scriptures nor in tradition so as to be at once recognized everywhere by all, and such a doctrine is that of personal infallibility—can never be a subject of dogmatical definition. 2. The principal defect of the doctrine is that it gives the right of decision in matters of faith to the Pope alone, and thereby deprives of such right the other depositors of the apostolic office. 3. It should be remembered that neither the Pope nor the bishops are masters of God's Word; they are its servants, and they must learn before they can teach. 4. Hitherto, as a matter of practice, all the Popes, including Pius IX himself, have always consulted the bishops, etc, before coming to any important religious decision, but this will be impossible if the Pope is made personally infallible, for in such case he cannot ask or accept advice 5. What is to become of Papal infallibility if the Pope should fall ill in mind or body—if a long vacancy were to occur in the Holy See—or if in consequence of a schism the validity of the Papal election should be doubtful? The pamphlet concludes by warmly urging the abandonment of the dogma of Papal infallibility as the only means of securing peace in the church.

According to reports received at Vienna, a speech made at a recent sitting of the Council by Cardinal Prince Schwarsenberg created even a greater uproar than the famous one of Bishop Strossmayer. He said that the time for religious wars was past and that an epoch of conciliation was at hand. It was equally unchristian, unintelligible and incorrect to place the Protestant in the same category with heathens and atheists. The Roman Church and the Roman Bishops must accept a word of advice on this subject from the German and Austrian Prelates. The latter are in daily communication with Protestants, and know them better than those who never see them or read their books. The presiding Legate, Cardinal de Angelis, here interrupted the speaker and a warm dispute between the two Cardinals ensued. The President strove but in vain to silence the Cardinal with his bell, and finally the Bishops drowned his protests in a storm of hisses, in the midst of which the Cardinal was carried from the tribune, half fainting from excitement, to his seat.

Miscellaneous Items.

Mr and Mrs Michael Haley, of Bartholomew County, Ind, have been married eighteen years, and the result has been a family of seventeen hearty and handsome children—ten boys and seven girls.

The freedom of the Royal Burgh of Stirling was conferred on Sir William Stirling Maxwell, Bart., 'in consideration of his career as an art critic, politician and gentleman.' This honorary distinction has been conferred on only four individuals since 1819—Leopold II, King of the Belgians, Earl Russell, Lord Brougham, and Mr Stirling, of Kippendavie.

A little difficulty was on hand between the North German Confederation and the State of Schwartzburg Rudolstadt, owing to the refusal on the part of Schwartzburg to pay the taxes demanded of it, on the ground that the Crown domains are not assessed at their full value and that the country has a right to demand that they shall contribute a larger sum.

In Rome the chapter of St John of Lateran celebrated in that basilica a grand mass in honor of the birthday of Napoleon III, who is one of the honorary canons. The Emperor was represented by the Marquis de Banneville. The ceremony was attended by a large number of Cardinals, Archbishops, and other notabilities.

Grau is bringing to this country Madame Maria Niemann-Seebach, the great German tragedienne, who is to play one hundred nights in America.

A memorial, signed by 5000 persons, was lately presented to the Secretary of State in London, asking him to restrain the leveying of the income tax until a royal commission inquires into the whole system of Indian finance.

The village of Broadclist, near Exeter, England, was recently destroyed by fire. Fifty-[illegible] houses have been burned and only eight[illegible] remain. The property belongs to Sir F [illegible]and, whose son, Mr Acland, MP, made arrangements for supplying the sufferers with [illegible] and shelter.

THE BRITISH COLONIST.

Saturday Morning, June 25, 1870.

Statistics—Progress.

So accustomed had people become to hear the croaking song of 'ruin and decay' that men began to think there was more of truth than poetry in it. While in a comparative sense there is far too much truth in it, that it is not true in fact will readily appear from the official census and statistical returns of 1869, as compared with those taken in the year 1867. Commencing with the population of this city, we find that the population (exclusive of Indians) was 4208 last year. In 1867 it was 2411. In 1860 it was 2360. According to these figures the population of this city has nearly doubled since 1867 and is almost twice as large as it was in the gloomy days of 1860. The figures for 1867 must, however, be received with some degree of allowance for the imperfect taking of the census. This year, it is only proper to remark, the census was taken with very great care. Does this look like 'Goldsmith's deserted village'? Turning to the rural districts now forming the Electoral District of Victoria, we find a no less gratifying condition of affairs. The rural population is now 1062. In 1867 it was a little more than six hundred. This gives the total population of Victoria City and District at 5313 as against 3011 for 1867—a population which, although still small in fact, is, comparatively speaking, highly gratifying when regarded in the light of its rapid increase. If we look at the material progress exhibited in the agricultural statistics the case is still more gratifying. The total number of acres under cultivation in 1867 was 2714. Last year there were 6687, or considerably more than double! The increase is most notable in Victoria District, which increased from 759 acres to 2597; in North Saanich, which increased from 335 acres to 1299; in Esquimalt District, which increased from 839 acres to 1136. For closer analysis, showing the relative proportions of the various kinds of crops grown upon these acres in the several districts, we must refer the reader to an abstract statement elsewhere. It will not escape observation that the number of acres under oats is large in proportion to other cereals, and that the breadth of ground under potatoes is very small. We do not possess the means of comparing the number of acres under pre-emption last year with that of previous years, inasmuch as the returns for 1769 did not embrace that very interesting item; but it must be admitted that 28,691 is a very respectable amount. Turning to live stock, it will be seen that the progress is no less marked. The returns for 1867 show 200 horses, 1161 cattle and 1194 sheep. Those for 1869 show 472 horses, 2128 cattle, 3236 sheep, 1551 pigs and 7098 chickens. Let it be borne in mind that these returns are confined to the Electoral District of Victoria, and, consequently, do not comprise Nanaimo, Comox, Salt Spring Island, Cowichan, Sooke and some minor settlements. It will be admitted, we think, that this record, taken as a whole, is not indicative of 'ruin' and decay, either in town or country. Indeed it is eminently encouraging. Doubtless very much remains to be done before our farmers overtake the public demand. One need only refer to our imports and see the tens of thousands sent out of the country every quarter, nay, every month, for the purchase of those articles for the production of which the climate and soil of this colony are so well fitted in order to be convinced of the enormous expansion of which our agricultural interests are yet capable. There are more farmers wanted; but from all that we have been able to learn, more farm laborers are equally essential. The cry from every settlement is for more laborers; and there is no reason to doubt that with the labor market fairly supplied the produce of the farms even now under cultivation would be trebled. How this great want shall be supplied becomes a question of the most vital importance—one to the practical answering of which it would be well did our Government and public men bend their best efforts. Is it not strange that there should be such a paucity of farm laborers in a colony where the rate of wages ranges as high as $30 a month and found?

Haliburton on Confederation.

Mr Haliburton, of Nova Scotia, has recently been lecturing to the Antiguans upon the subject of Confederation, the Dominion of Canada and its relations to the West Indies. The *Antigonish Chronicle* gives a lengthy and highly complimentary notice of the lecture and the lecturer. Alluding to the vastness of the territory to be comprised in the Dominion, Mr Haliburton mentioned, as a significant circumstance, that a lake 500 miles long had only lately been discovered in the interior. The great central plain, or Fertile Belt, was brought under view of the astonished Antiguans and, in glowing terms, was pictured as the future granary of the Western World. He dwelt upon the marvelous lake, river and canal system of Canada, as opening an outlet on the Atlantic, prefiguring the proud destiny of Halifax and other maritime towns. As a maritime nation Canada, notwithstanding her youth and the sneers of a powerful but jealous neighbor, stands fourth in the list of nations, her tonnage being exceeded only by that of Great Britain, the United States and France. As a producing and manufacturing country Canada was making enormous strides, thanks to light taxation and free government; and she has not only the goods to export but she has the ships to carry them. Many of these productions she could supply to the West Indies more cheaply than could the United States. For instance, a good buggy could be had in Nova Scotia for about £12, whereas in Antigua the price was £50. Recurring to the commercial and maritime prospects of the Dominion, Mr Haliburton pointed out the remarkable fact that Nova Scotia on the Atlantic side, and Vancouver Island on the Pacific side, are the only countries in the whole Western Continent which possess coalfields on the seaboard, a circumstance which he regarded as the great lever by which the Dominion will inevitably be raised to commercial greatness—the Britain of America. Extending his view, Mr Haliburton pointed to the not distant period when the West Indies, confederated in the first instance among themselves, will join the Dominion of Canada, and form with it a great power, backed up by the first power of the world. The lecturer concluded by reciting a poem in which the praises of the Northwest were sung, as 'The land of Love and Song'; thus claiming for it not only those material advantages which he had been setting forth with so much eloquence and force, but also the power to develop imagination and sentiment. At the conclusion of the lecture the Lord Bishop paid Mr Haliburton a high compliment, and expressed the hope that when he again honoured Antigua with a visit he might find some practical fruit of his very excellent and instructive lecture.

A Card.

EDITOR BRITISH COLONIST — To my surprise when I read the report of the Licensing Court proceeding in this morning's *Standard*, I saw, after my name 'granted with a caution.' In justice to myself I feel it my duty to enlighten the public as to what the caution was—

1st—Mr Cameron said one of his men got drunk at my house and on his way home the horse ran away and broke his wagon.

2d—Mr McKenzie also stated that he had seen wagons stopping at my house, without the drivers, who were in the house drinking.

I keep a house for the convenience of the public and I cannot see why complaint should be made if drivers of teams or others should call at my house.

PATRICK EVERETT,

THE STANDARD LIFE ASSURANCE COMPANY,

ESTABLISHED 1825.

CONSTITUTED BY SPECIAL ACTS OF PARLIAMENT.

THE FORTY-FOURTH ANNUAL GENERAL MEETING OF THE STANDARD LIFE ASSURANCE COMPANY was held at Edinburgh on Tuesday, the 26th April, 1870,

ANDREW WOOD, ESQ, M D, in the Chair.

THE MANAGER submitted to the Meeting,—

The Annual Report of the Directors and Balance-Sheet of the Company's Affairs,

The Annual Report on the Books and Accounts by the Auditor of the Company, certifying that he had found the whole Accounts accurately stated and properly vouched.

THE FOLLOWING ARE EXTRACTS FROM THE REPORT:—

THE PROGRESS OF THE COMPANY DURING THE PAST YEAR HAS BEEN of a very satisfactory character, and it is matter of congratulation that, during a period of great distrust and dissatisfaction in the Assurance world, the business of this Company has increased, not decreased.

THE NEW ASSURANCE TRANSACTIONS PROPOSED to the Company from 15th November 1868 to 15th November 1869, the Company's financial year, amounted to the large sum of £1,460,867, 2s 9d., contained in 2026 Proposals—of which 407 for assuring £350,520 were not considered eligible, and declined.

THE NEW POLICIES ISSUED during the year were 1619 in number, and the Assurances effected amounted to the large sum of £1,110,347. 2s. 9d.; the new Annual Premiums being £38 532, 2s 8d.

THE CLAIMS BY DEATH amounted to £322.117, 11s. 8d..the number of deaths being 564; and the Bonus Additions to the Policies which became claims amounted to the further sum of £36.649, 10s. 10d.

THE INCOME OF THE COMPANY received during the year ending 15th November 1869, amounted to £710,428 16s. 3

THE INVESTED FUNDS, as shown on the Balance-Sheet, which follows, had reached the sum £4 284,648 7s 3d.

THESE are the Results of the year; but the following additional particulars as to the Company may also be interesting.—

THE NEW BUSINESS OFFERED to the Company since the last Division of Profits in 1865—that is, in four years—has amounted to £5.652,481 12s 7d., the number of Proposals being 8738.

THE NEW POLICIES issued during the same period have been 7254, for Assurances to the amount of £4,532,414, 3s. 5d.

THE CLAIMS BY DEATH which the Company have met during the four years have amounted to £1,258,126, 4s. 6d. with Bonus Additions to the amount of £178 132, 5 . 7d.

AND

THE SUBSISTING ASSURANCES at 15th November 1869 were £16,345,419, 2s. 6d, of which £931,819, 12s was reassured with other Offices.

THE BALANCE-SHEET of the Company's Affairs, as at 15th November 1869 is as follows:—

BALANCE-SHEET OF THE STANDARD LIFE ASSURANCE COMPANY,
AS AT 15TH NOVEMBER, 1869.

LIABILITIES.	£	s.	d.	ASSETS.	£	s.	d.
Capital paid up	£ 120 000	0	0	Mortgages on Landed Estate	£2,632,336	6	6
Assurance Fund	3,679,732	10	11	Freehold and Leasehold Properties and Landed Estate	276 523	4	10
Annuity Fund	228 058	1	3	Loans on the Company's Policies (within the surrender Value thereof)	213 288.	13	10
Reversionary Transactions	71,500	0	0	British Government Securities	57 953	19	10
Claims admitted but not yet due	167,257	16	2	Indian Government Securities	15,168	15	0
Amount held on Deposit in connection with uncompleted transactions	16.795	10	5	Canadian Government Securities	33,901	13	11
Dividends outstanding	1,304	8	6	Invested abroad in connection with Colonial Business	39,742	15	8
				Stocks of Scottish Chartered Banks	24,154	8	4
				Railway Debentures, Debenture Stocks, and Preference Stocks	277 349	4	6
				Life Interests, Reversions, and Annuities purchased	77,180	3	6
				Loans upon Personal Security in connection with Policies	43,235	17	6
				Premiums in course of collection at Head Office and Agencies	174.930	18	4
				Proportion of Interest current	26,245	4	4
				CASH.—On Deposit with Bankers……£14 829 14 7 On Current account with Bankers…… 69,979 19 0	84,809	13	7
				Value of Re-assurances with other Companies	244 406	16	10
				Other Assets	66 440	11	1
	£4 284 648	7	3		£4 284,648	7	3

THIS BALANCE SHEET shows distinctly how the Funds of the Company are invested; and a Special Committee has been appointed to examine and report on each separate transaction, preparatory to the Declaration of Profits next year. That this report will be one of unqualified approval the Directors have every confidence, as the same principles have regulated their selection of investments as in former years and they feel satisfied that the professional gentlemen who have agreed to undertake the duty will be able to report in as favorable terms as the Committee of 1865, the period of last Investigation.

THE EIGHTH DIVISION OF PROFITS

falls to be made as at 15th November, 1870. The necessary Investigation which precedes the Declaration of Profits has been in progress for some time, and the Directors hope to be able to submit their Report early in 1871.

THE CLOSE OF THE PRESENT BONUS PERIOD ON 15TH NOVEMBER, 1870,

Persons assuring before that date being entitled to a share in the division of Profits to be made in 1871, which will include the whole divisable profits which have arisen since 15th November 1865.

GUARRANTEED SURRENDER VALUES.

The Directors have adopted FIXED SURRENDER VALUES, as fully stated in Report.

The Report having been unanimously approved of—The Establishment of the Company, after filling up vacancies in the usual manner, was arranged as follows for the ensuing year:

Shipping Intelligence.

PORT OF VICTORIA, BRITISH COLUMBIA.

ENTERED.

June 24—Stmr Grappler, Revely, Nanaimo

CLEARED

June 24—Stmr Pelican Gregory, San Francisco

DIED.

At Esquimalt, June 24th, Barbara Ann Searf, wife of Mr George Searf, aged 34 years.

The Funeral will take place on Sunday afternoon, at 4 o'clock, from St Paul's Church, Esquimalt. Friends are invited.

St John's Day—Masonic Demonstration.

Yesterday being the natal day of St. John, the Patron Saint of Free and Accepted Masons under the English Register, was observed by the performance of customary Masonic rites and of religious exercises at St John's Church. The District Grand Lodge, presided over by District Grand Master Burnaby, and members of Victoria, British Columbia and Vancouver Lodges, together with a number of sojourning Brethren, assembled at the Hall at 11 A M. The Lodge was called to order by the District Grand Master, who was assisted by Grand Senior Warden Henry Nathan, jr., Grand Junior Warden Wm Clarke, Grand Chaplain Rev F B Gribbell, Grand Senior Deacon Richard Lewis, Grand Junior Deacon Eli Harrison, Grand Secretary Cornelius Thorne, T Shotbolt, G I G, Wm H Thain, G T, H Brown, G S B. Among the Brethren present were Bro G C Keays, WM, and Brothers M W Waitt and S Duck, Past Masters of Vancouver Lodge. The unfavorable state of the weather and the departure of the steamer prevented a very large attendance. Shortly before 12 o'clock the Brethren formed in procession and, preceded by the Volunteer Band, marched to St John's Church where service was performed by Grand Chaplain Gribbell and Rev Mr Jenns. The church choir were kindly in attendance and sang several hymns with much power and efficiency—the organ being presided over by Miss Pitts. The Rector then proceeded to deliver a most impressive and eloquent extempore sermon—taking for his text the 40th chapter of Isaiah, 6th verse:

'The voice said, cry. And he said, What shall I cry? All flesh is grass, and all the goodliness thereof is as the flower of the field.'

The sermon was very attentively listened to by the assemblage, and upon the return of the Brethren to their Hall Brothers Henry Nathan, jr, G C Keays and Eli Harrison were appointed a committee to present the unanimous thanks of the Masons to Rev. Mr Jenns for the admirable discourse.

Life Assurance.—We publish in our advertisement columns the annual report of the Standard Life Assurance Company, from which it appears that the assets of the Company have been increased, between the 15th November, 1868, and 15th November, 1869, by the enormous sum of £189,058 11s. 1d., sterling, or about $945 290. This old Company has been established since 1825, and has therefore been in active working for forty-five years. We recommend to the attention of our readers an article on Life Assurance in the London *Quarterly Review* for January last, in which it is laid down that no company can calculate its risks so as to be on a perfectly safe basis until it has been in operation for forty years. The report of the Directors of the Standard would seem to indicate that this company has stood the test and in a most successful way. The duty of Life Assurance is so obvious as to need no urging, and we should think that the report in question would certainly induce many new applications to Mr Robert Burnaby, who is the agent of the company.

The Lottery.—A great many of our citizens have been smitten with the lottery fever and have invested in the purchase of from one to twenty numbers at $5 each. A favorite plan is to form a pool, or ring, or set of ten or twenty persons. Each person puts in $5 and 20 numbers are thus secured and lodged in the Bank. Should either of the numbers prove the lucky or winning one, the prize is equally divided by the pool. Even a one-twentieth interest in the big prize of $100 000 is not to be lightly prized in these hard times; but we venture the prediction that the person who draws the $100 000 will either be a poor devil who would have felt quite as contented and as happy had he drawn $100; or that he will be a modern Crœsus to whom the sum will be like a drop of water in a bucketful. Among the investors are several young unmarried men who expect to set up housekeeping on their winnings. We trust that they will not be disappointed; but as *all* cannot draw a prize, some one has got to go without.

A Windfall.—Mr Richard Hall, a long-time resident of this city, received intelligence by the Pelican that he had fallen heir to an immense property in the town of Burnley, Lancashire, England. The property had been in Chancery for many years with no prospect of speedy arrangement, when Grim Death cut off both contestants within a few days of each other and threw the property into Mr Hall's hands as heir-at-law. Burnley is a very large manufacturing town and the property is situated on one of the principal streets. Mr Hall sailed in the Pelican yesterday for England, after an absence of thirty years.

Help from Home.—Contributions towards the re-building of Christ Church Cathedral are slowly but surely coming in from afar. The following Oundle item appears in an English Provincial newspaper:—'On Sunday collections were made in the parish church, after sermons preached by the Vicar and the Rev C I Gibbon, amounting to upwards of £10. The claims urged upon the congregations specially were as applying to the Cathedral of Christ church, Victoria, lately destroyed by fire, and the Rev Cridge, dean of the cathedral, having been a master of the Oundle Grammar School, it excited more than usual interest.'

Sailed.—The steamship Pelican, Capt Gregory, sailed at 4 o'clock yesterday afternoon. Her cabin passengers were: W H Oliver, Lady Franklin and niece, B Saunders, C A Kinkead, W A Calhoun, W Tyack, F Richards, C B Julian, Capt Raymur, [illegible] Dr Kelock, W P Adams, [illegible] J Hall. In the steerage [illegible] soldiers from [illegible] freight.

[illegible] hen all em[illegible] incapable of conti[illegible] weariness and ex[illegible] ful tonic, acting g[illegible] stomach, and gradually increasing th[illegible] ulation, and of the digestive system w[illegible] move the difficulty. Such a medicine [illegible] Vegetable Vinegar Bitters, which in[illegible] will be found renovates the system giving it renewa[illegible] as of youth again.

Consistency!

"*The above is wrote sarcastic.*"—A. Ward.

Mr DeCosmos, June 24, 1870	Mr DeCosmos. Nov 14, 1868
IT IS THE SYSTEM, NOT THE MEN. Humbug was never more successful in finding an excuse, than in excusing the Governor and his official law makers for their political short-comings, by saying that "it's the system, not the men!" There are a number of SIMPLE-MINDED PEOPLE IN THIS COLONY WHO HAVE HEARD THIS EXCUSE, and have heard it so often that they have actually persuaded themselves that it is true, but we are happy to say that their name is not Legion. There is another class of people who know better, but who find no way to excuse the Government but by saying, "It's the system not the men." THIS CLASS ARE THE BAMBOOZLERS, THE GOVERNMENT GLOSSERS; THE MEN WHO VARNISH THE GOVERNMENT SYSTEM EITHER FROM SYMPATHY OR INTEREST. Now, we are of that number who repudiate such an excuse.	"Whatever unpopularity there is justly connected with Governor Seymour's government cannot be cured by his removal. To remove the Governor will not reduce the Governor's salary nor rid the colony of an unnecessary number of officials; nor curtail the extravagant salaries of those retained. What the public require is a CHANGE OF THE SYSTEM OF GOVERNMENT—such a change as will secure Representative Institutions and Responsible Government. EXCEPT WE GET THESE TWO PRINCIPLES ESTABLISHED, ALL THE CHANGING OF GOVERNORS IMAGINABLE WILL NOT IMPROVE THE EXECUTIVE AND GOVERNMENT, nor make two blades of grass grow where one grew before. A. DEC."

The Lost Gunvessel.—The gunvessel lost in the China seas, over the name of which the telegraph became so strangely confused, is believed to be the Slaney, 301 tons, 80 H P, which has been on the China station for some years. She was commanded by Lieut William F L Elwyn, a brother to Thomas Elwyn, Esq, of Cariboo, and of Lieut Elwyn of H M S Zealous. There are no particulars at hand as to the manner in which the lamentable disaster was brought about.

The ex-gunboat Grappler, Capt Revely, with 65 tons of coal, came into the harbor yesterday and went alongside of Dickson, Campbell & Co's wharf. The Grappler is now the property of Capt Frain and will ply in the coal trade between this port and Nanaimo. On the trip up she made the run in 8½ hours and made the down trip in 8 hours. She will carry 200 tons of coal. The boiler and machinery perform admirably and the vessel runs through the water like a witch.

The Zealous.—The Grappler reports that the Zealous had not arrived up to Thursday morning when she left there. The Zealous was to call at Nanaimo on her way to Fraser mouth to coal and was expected to arrive at Frasermouth on Saturday morning. A sloop arrived last night from San Juan Island and reported that the Zealous sailed from off the English camp at 12 o'clock Thursday for Nanaimo.

Father McMahon.—This old reprobate who, it will be remembered, was taken prisoner upon the occasion of the Fenian raid of 1866, and served a term in the Canadian penitentiary, was at Malone during the raid of last month, inciting the Fenians to renew the attack. He had small success, however. The men told him that their officers had all the money, while they were starving, and expressed a hope that the Government would hang them [the officers].

That celebrated comedian, Mr Ellerton, will give one of his side-splitting entertainments at the Theatre to-night, consisting of comic and serio-comic songs, with actions to match. Polygraphic, photographic and dramatic characters will appear from every movement of his phiz., like *ictas* from a midshipman's chest. We have seen Mr Ellerton several times during his stay here and have no hesitation in saying he is an artist of the first class, and only wants seeing to be appreciated.

Two Lunatics were sent away yesterday on the Pelican. They are Americans. One, a large, powerful fellow, was quite violent and appeared disposed to take command of the ship. The other was sullen and quiet and seemed to relish nothing so much as to be left alone in his misery and mental darkness.

Strange Movement.—A communication from Vienna states that since the publication in Austria of the laws on religious liberty a strange movement has arisen among the population of that city. In the course of less than two years about 680 persons of both sexes have abjured Christianity for the Jewish faith, and these persons are on the increase.

The Enterprise has been chartered to take a number of excursionists from New Westminster to the Zealous, and is not expected to return here until Sunday. She carried up a fair freight and a few passengers yesterday.

Weekly Colonist.—The subscription to this paper has been reduced to $5 per year, postage added. On and after July 1st the reduced rates of postage will come into force when two cents per copy only will be charged on papers mailed to any part of the United States, Canada or Europe.

Police Court. — This useful institution evoked but small interest yesterday, the S S Doctor not having been trotted out. The only matter before the Court was a DD case—that of a French Canadian. He was adjudged to pay $1 indulgence-money to the Government, which sum he paid, muttering something about 'bad whisky' as he left the Court.

Daily Colonist.—We have reduced the rates of subscription to the Daily Colonist to $10 per year, and a proportional reduction has been made in subscriptions for a less term than one year. See office advertisement on the first page.

Gold Shipments.—The Bank of British North America shipped, yesterday, through Wells, Fargo & Co, $24,989, and the Bank of British Columbia, $21,185—total, $46,174.

The Pelican, or some other steamship of the line, will sail from San Francisco for Victoria on the 4th or 5th proximo—the mail contract being for one trip a month.

The Telegraph.—A short dispatch was ferried across the break last evening. It contains nothing late or important. The Emma, we believe, has been chartered to lay the cable.

Governor McTav[illegible] took his final departure from Red [illegible] 17th May. He goes to Europ[illegible] after a residence [illegible] North-West.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Eastern States.

Washington, June 18—Rogers Green has been nominated as Chief Justice of the Supreme Court of Washington Territory.

The Internal Revenue receipts for the fiscal year to date is $175.643 892 coin. In the Treasury to-day there is $109 767.595 in coin, certificates $340 940.000—coin balance $215.569.882.

Chicago, June 19—A Washington special says there is considerable opposition among extremists to the nomination of Ackerman, as he served 18 months during the rebellion on the staff of General Robert Toombs and had to have his disabilities removed by Congress. His friends admit this but claim that General Toombs also was a warm personal friend. This fact protected him from conscription, although he (the General) knew him to be a Union man. The nomination was referred by the Senate in Executive Session to the Judiciary.

A *Times'* special says there is a well settled belief in Administrative quarters that there will be a partial disorganization of the Cabinet before the present session of Congress closes, and the Secretary of State, Secretary of the Navy, and the Secretary of the Interior are named as members whose resignations are likely to be presented.

It is thought the Goat Island Bill will pass when a reconsideration is had.

Washington, June 17—Doubts are expressed of the confirmation of Ackerman as Attorney General. A careful canvas of the Senate indicates that there is very bitter opposition against him.

Chicago, June 19—A Washington special says working men are urging the Senate to pass a bill to prohibit contracts for servile labor. A recent importation of Chinese shoemakers into Massachusetts stimulates the action.

New York, June 18—The Board of Fire Underwriters have adopted a resolution recommending various companies to charge at the rate of fifty cents per hundred additional insurance for the privilege of keeping fireworks on sale. The extra price to be continued for periods not exceeding thirty days. The same charge is expected to apply to buildings containing fireworks with their contents. The charge is suggested for the protection of insurance companies from loss during the fireworks season.

St Louis, June 18—A General arrived here yesterday evening *en route* for the Pacific coast to take charge of the Department of Columbia, *vice* General Crook, relieved.

Dispatches from Fort Hays, Kansas, and other points report the Indians very numerous between Camp Supply and Bear Creek. They are all on the war path. Several Government wagons and other trains and herds have been attacked, but so far the Indians have been driven off. One train corralled 2 days from Typoon creek fighting Indians. Trains from Camp Supply were attacked four times. It is no longer safe for herds to travel without a strong escort.

Boston, June 18—The House has refused by a vote of 99 to 122 to receive a bill providing that no contracts for Coolie labor should be made extending beyond a term of six months.

En Route to Ottawa.

[FROM OUR SPECIAL DELEGATE.]

Toronto, May 29, 1870.

In conformity to the command 'Thou shalt do no manner of work,' I find myself an involuntary sojourner for a day in this God-fearing city of the Dominion—and never before, in an orthodox sense, have I seen a more literal observance of the divine commandment than I have witnessed to-day in this old town of York. Never have I realized so forcibly the contrast between labor and rest as exemplified here. Yesterday, as if life depended upon the mere effort to create noise and bustle, every person and every engine of sound and motion seemed specially employed. The tramp of 50 000 feet, the rolling and clattering of coach, car and dray wheels along the streets, the ringing of train bells, the snorting and puffing of engines, the rattling of railway cars, the whistling from the steamers, the crying of fish, fruit and Fenian war extras, together with all the laboring and puffing machinery of a manufacturing town, turned it into a very pandemonium of unrest. To-day all is changed. Only the chiming of the Sabbath bells break a stillness that would otherwise be painful to hear. Toronto may be truly called a Sabbath observing city. Not an old clo' or a whisky shop open, not a door even ajar. No mails to come or go, not a paper to give a zest to the morning cup of coffee—and even the pleasant resort of the thousands who visit Queen's Park in the afternoon is seasoned with the face of the Gospel by itinerant preachers who gather the multitudes around them to hear doctrines of religious truth.

The past week has been one of intense excitement throughout the Dominion in consequence of the Fenian invasion. Anything that I might write would be stale to you, as, of course, in a matter like this the telegraph will keep you informed. Not that you will be likely to get any accounts unmixed with falsehood and exaggeration, but you will probably in the end get the true result of what is beyond doubt an effort of folly, and can only result in making more distant the object sought to be obtained by the promoters and abettors in this disgraceful and diabolical farce. The indignation of the Canadian people toward the Government and the people of the United States was never more thoroughly alive than at the present moment, in view of the course pursued by the United States in this Fenian and also in the Red River affair. The stopping of the steamer at Sault Ste Marie is looked upon as an outrage as unwarrantable and as inexcusable as the mustering, drilling and outfitting of the Fenian hordes to invade the borders of their peaceful and unoffending neighbors. And the sending of troops to the frontier to preserve the laws of neutrality, in its operation, has only the effect of emboldening the invaders to attempt an assault, knowing that they will be protected from the Canadian bullets when they fall back within the American line.

So far in this Fenian war the invaders have shown themselves to be the veriest cowards on earth. In no single instance have they shown their faces to the second shot, nor has there been the life's blood of a single Canadian spilt, whilst scores of Fenians have been wounded [illegible] the conflict and numbers have paid the forfeit of their folly with their lives. All accounts up to the present seems to indicate a withdrawal of any further attempt at invasion, but such a conclusion may be premature.

I have not been long enough in Canada to learn much about Red River matters. News has just been received of the burning of a number of bridges constructed for the passage of the troops sent to Fort William; the fire, it is said, is caused by Fenians, in order to defeat the Red River expedition. Mr Adams G Archibald has been appointed Governor of Manitoba and will leave for that country in two weeks.

As regards Confederation I have yet to learn the minds of the people in Canada on the subject. Wherever I have heard British Columbia spoken of the expression was favorable to the colony, and a road to the Pacific through British territory is looked upon as a necessity of the age. I have not heard from the delegates since I left San Francisco, but shall probably meet them in a few days at Ottawa, for which place I start tomorrow.

S.

Maravilla Cocoa—*For Breakfast*—The *Globe* says—"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we dub whether any thorough success has been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supercedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London. 1awSat. 1yr

Breakfast—Epps's Cocoa,—Grateful and Comforting—the very agreeable character of this preparation has rendered it a general favorite. The Civil Service Gazette.—"The singular success with which Mr Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., 1lb. tin-lined packets, labled—James Epps & Co., Homœopathic Chemists London, England. se18 tuxsa

When all employment becomes irksome and the mind incapable of continued application to any subject through weariness and exhaustion of the body, than some healthful tonic, acting gently but surely upon the liver and stomach, and gradually increasing the force of the circulation, and of the digestive system will be found to remove the difficulty. Such a medicine is Dr. Walker's Vegetable Vinegar Bitters, which in purifying the blood renovates the system giving it renewed vitality and force as of youth again. 19*

Merit Rewarded.—It must be a source of gratification and pride to the inventor, after years of study and toil, to have success crown his efforts, and know his labors are appreciated. This is peculiarly the case with Dr. Walker's Vegetable Vinegar Bitters, which is composed of purely vegetable preparations, making the most effectual alterative that is possible for the medical intelligence and skill of our times to produce. 26.

Holloway's Ointment and Pills.—Throughout the year, whether summer heats or wintry chills rule the atmosphere, these remedies are always applicable, and will never fail to reward those sufferers who give a trial to their efficacy. This Ointment is invaluable for the relief of the many accidents which happen to children; chafes, cuts, burns pimples, and boils are instantly relieved and speedily cured by it; all external inflammations, carbuncles, whitlows, sprains, and erysipelas are restrained in their painful course by this cooling ungent and conducted to a thorough cure. Assisted by the purifying powers of the Pills, Holloway's Ointment works wonders in healing up old ulcers, and effectually skins over those chronic sores on the legs which makes existence miserable. 41

A Chance for Bargains in Clothing.—A. Gilmore, Yates street, near Government has commenced to sell off his entire stock of readymade clothing at cost, to close out that branch of his business, as he intends to confine his attention to Merchant Tailoring. Garments of every description made to order in the most fashionable styles at greatly reduced prices. *

Remember the Fate of Absalom.—Fred Payne, Tonsorial Artist. Shaving 12½ cents, Hair Cutting 25 cents, Shampooing 25 cents. That Original Cheap Shaving Shop stands on the sunny side of Johnson street.

The Flying Squadron.—A series of large size photographs of the Flying Squadron lying in Esquimalt Harbor and most beautifully taken, may be seen at F Dally's Photographic Gallery, Fort street, Victoria. *

Fell's Coffee, superior to any other brand manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony. *

Buy It and Try It.—Russell's celebrated Coffee. The best on the Coast. Warranted a pure and healthful beverage. *

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertical dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and to every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every stricture, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known the world for the following diseases:

Ague
Asthma
Billious Complaints
Blotches on the Skin
Bowel Complaints
Colics
Constipation the Bowels
Consumption
Debility
Dropsy
Dysentery
Erysipelas
&c.

Female Irregularities
Fevers of all kinds
Fits
Gout
Headache
Indigestion
Inflammation
Jaundice
Liver Complaints
Lumbago
Piles
Rheumatism
Retention of Urine
&c.

Scrofula King's Evil
Sore Throat
Stone and Gravel
Secondary Symptoms
Tic-Douloureux
Tumours
Ulcers
Venereal Affections
Worms of all kinds
Weakness, from whatever cause
&c.

Sold at the Establishment of PROFESSOR HOLLOWAY, 244 Strand (near Temple Bar), London, and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s. each Box.

DR. CHING FUN—A CARD—EDITOR BRITISH COLONIST:—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city, next door to Kwong, Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three firstclass American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months' treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief. Respectfully,

JOHN HENTON, of Kentucky, U S

Miscellaneous.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H. I. H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreaciated and prescribed by the faculty in the whole world. They widely differ from these numerous medicines advertised in the public paper as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France, with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals, or in the practice of the first medical men, are autherised by the Government. This fact must be a guarrantee for the excellency of MESSRS. GRIMAULT & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Physicians. Cures lymphatism, rachitism, scrofula, congestion of the glands of the neck, paleness and flabbiness of the flesh, loss of appetite, weakness of constitution, the various eruptions on the face, boils, pimples, itchings,—It is the best remedy against the first stage of consumption, and it is the most powerful depurative known.

DOCTOR LERAS'

(Doctor of Medicine.)

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing Iron and Phosphorus, which are the elements of the blood. It cures chlorosis, pain in the stomach, difficult digestions, dismenorrhea, anaemia, general debility and poorness of the blood, and agrees especially with the mosdelicate stomachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough abates, the night sweats cease, and the patient rapidly recovers health. It gives the same results in cases of coughs, catarrhs, hooping coughs and influenza. In comparing this syrup with the other sold under the same name, it will be easy to recognize the superiority of this preparation.

Therefore to avoid any substitution, please to require on the bottle the signature: Grimault and Co.

NERVOUS HEADACHE and NEURALGIA.

GUARANA.

A single powder of this natural vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa,

Digestive Powders, Pills & Elexir of

PEPSINE.

Of certain effect against nausea, pituite, heart burn, gastritis, gastralgia, children's diarrhœa, inflammation of the mucous coats of the stomach and bowels, vomiting during pregnancy, jaundice, etc.

NO MORE COPABIA OR CUBEBS.

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other Medicines have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and Copabia and cubebs. The injection is used in recent and capsules in the more chronic cases.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

DIGESTIVE LOZENGES.

This delicious preparation is always prescribed by the most reputed medical men in France, in cases of derangements of the digestive functions, such as gastritis, gastralgia, long and laborious digestions, wind in the stomach and bowels, emancipation, jaundice and complaints of the liver and loins.

They are considered by physicians as being superior to the celebrated Vichy Lozenger.

Largesse's Syrup & Paste

OF SEA PINE SAP.

These two preparations are invaluable and taken with the utmost success for consumption and the various diseases of the chest, and especially for coughs, colds, catarrahs, influenza, hooping cough, bronchitis, asthma, and also for the different affections, of the urinary organs

FERRUGINOUS SYRUP.

OF PERUVIAN BARK.

Superior to all the compounds of Iron for all diseases of the chest, fainting, nervous affections, painful digestions and impoverished blood; it is recognized as the best and most agreeable remedy.

ASTHMA. ASTHMA. ASTHMA.

INDIAN CIGARETTES

Prepared with the Essence of Canabis indica

Wonderful results have been obtained from the use of these cigarettes, by persons suffering from Acthma and other complaints of the respiratory organs.

N. B.—All the above medical preparations are accompanied by instructions as to the manner in which they are to be taken,

Bear testimony to the Wonderful Effects of

Dr. Joseph Walker's

These Bitters are not a gilded Pill to delight the eye or please the fancy, but a medical preparation composed of the best vegetable ingredients known.

"The Life of all flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow. Is a gentle Purgative as well as a Tonic.

CALIFORNIA VINEGAR BITTERS,

Manufactured from the native Herbs and Roots of California,

The Great Blood Purifier.

FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT, DYSPEPSIA or INDIGESTION, BILIOUS REMITTENT and INTERMITTENT FEVERS, DISEASES of the BLOOD, LIVER, KIDNEYS and BLADDER, these BITTERS have been most successful. Such Diseases are caused by VITIATED BLOOD which is generally produced by derangement of the digestive organs.

Cleanse the vitiated Blood, whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy and all will be well.

EXTRAORDINARY CURE OF A COUGH

HER MAJESTY'S GUNBOAT "NETLEY,"
WICK, N.E. COAST OF SCOTLAND,
DEAR SIR, September 7th, 1868.

Having had a most distressing cough, which caused me many sleepless nights and restless days, I was recommended by His Lordship the Earl of Caithness to try your invaluable BALSAM OF ANISEED, and I can assure you with the first dose I found immediate relief, even without having to suspend my various duties; and the first small bottle completely cured me, therefore I have the greatest confidence in recommending it to the million.

Most respectfully yours,
To MR POWELL. W. LINZELL, H.M.G.B, NETLEY.

POWELL'S BALSAM OF ANISEED,

For Coughs, Colds, Influenza, Shortness of Breath, Asthma Bronchitis, and for all affections of the Lungs this old established remedy will be found invaluable.

The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly all the Britise Colonies, has induced the Proprietor to still further extend the beneficial results of its use, and he begs to announce that he is now introducing it for sale into Victoria, B. C., and has appointed Messrs Millard & Beedy Wholesale Agents, through whom Chemists and Storekeepers can obtain a supply.

THE PRICE IS WITHIN THE REACH OF ALL CLASSES.

POWELLS BALSAM OF ANISEED
TRADE MARK.

Established 1824.

Prepared and sold by THOMAS POWELL, 16 Blackfriars Road, London. Sold in bottles by all Chemists and Patent Medicine Vendors, throughout the World.

IMPORTANT CAUTION — Observe that the Words "THOMAS POWELL, Blackfriars Bridge, London," are engraved on the Government stamp affixed over the top of each bottle, without which none [illegible].

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
